SECTION 1 — ACCEPTABLE AI USE POLICY

Which tools are approved, what employees may do with them, and where a human must stay in the loop.

Policy text

1. PURPOSE
This policy states which AI tools are approved for company use and the conditions under which employees may use them.

2. APPROVED TOOLS

SECTION 2 — DATA HANDLING & AI POLICY

What may be entered into AI tools — and what never leaves the business without approval.

Policy text

1. CLASSIFICATION
Company data is classified: PUBLIC, INTERNAL, CONFIDENTIAL, RESTRICTED. Personal information of clients, employees or data subjects is CONFIDENTIAL or above.

2. WHAT MAY ENTER AI TOOLS

SECTION 3 — AI VENDOR ONBOARDING POLICY

No new AI tool enters the business without diligence, an owner, and a register entry.

Policy text

1. NO STEALTH ONBOARDING
No AI tool, agent or plug-in may be used for company work before it passes this policy.

2. DILIGENCE STEPS
(a) Owner assigned; (b) vendor questionnaire completed (data residency, retention, sub-processors, breach

SECTION 4 — AI INCIDENT REPORTING POLICY

See something, say something — within 24 hours, internally, without blame.

Policy text

1. WHAT COUNTS AS AN INCIDENT
Any AI-related event that may compromise personal information, money, systems or reputation: data exposure, an agent acting outside instructions, vendor breach, prompt manipulation, unauthorised tool discovered.

2. REPORT WITHIN 24 HOURS

SECTION 5 — AI AGENT OFFBOARDING POLICY

How an agent leaves: data returned, credentials revoked, passports closed.

Policy text

1. WHEN AGENTS LEAVE
Every decommissioned AI tool or agent follows this checklist: (a) data export completed; (b) vendor deletion confirmed in writing; (c) credentials and API keys revoked; (d) Agent Passport closed with decommission date; (e) register entry updated.
